## Synopsis :

About the Author Steve Krug (pronounced 'kroog') is best known as the author of Don't Make Me Think: A Common Sense Approach to Web Usability, now in its second edition with over 350,000 copies in print. Ten years later, he finally gathered enough energy to write another one: the usability testing handbook Rocket Surgery Made Easy: The Do-It-Yourself Guide to Finding and Fixing Usability Problems. The books were based on the 20+ years he's spent as a usability consultant for a wide variety of clients like Apple, Bloomberg.com, Lexus.com, NPR, the International Monetary Fund, and many others. His consulting firm, Advanced Common Sense ('just me and a few well-placed mirrors') is based in Chestnut Hill, MA. Steve currently spends most of his time teaching usability workshops, consulting, and watching old episodes of Law and Order.
